

Luca Di Giacomo

AI & Data Specialist | M.Sc. Artificial Intelligence & Data Engineering

Date of birth: March 17, 1997 | Nationality: Italian
(+39) 3405133275 | digiacomoluca1797@gmail.com
github.com/dgl1797 | linkedin.com/in/luca-di-giacomo-78267a38b

PROFESSIONAL SUMMARY

AI & Software Engineer with a solid academic background from Politecnico di Torino (B.Sc. in Computer Engineering) and the University of Pisa (M.Sc. in Artificial Intelligence and Data Engineering). I combine advanced Software Engineering competencies with AI Engineering expertise. Backed by experience in both IT consulting and product development, I have built strong problem-solving abilities, a collaborative mindset, and high adaptability.

WORK EXPERIENCE

DATA & AI SPECIALIST – Deloitte NextHub S.r.l. S.B.

Jan 2026 – Present

- Data Analysis & Data Science: Advanced analytical tasks focused on forecasting and clustering algorithms. [Python, Pandas, NumPy, Plotly, Statsmodels, Scikit-learn]
- Automation: Script development to automate and optimize internal team workflows. [Python, Streamlit, Pandas]
- GenAI Technical Support: Maintaining and optimizing the Knowledge Base for internal agentic systems. [HTML, CSS, JavaScript, Markdown]
- Prompt Engineering: Designing prompts, skills, and context frameworks for GenAI integration in EDP systems. [Markdown, Python, Databricks]
- Work Organization & Management: Managing concurrent tasks within Agile/SCRUM framework. [MS Teams, MS Tasks, MS SharePoint]

FULL STACK DEVELOPER (INTERNSHIP & FREELANCE) – Fragments S.r.l.

Mar 2021 – Dec 2021

- Serverless Web Applications on AWS and Node.js. [React, Redux, Axios, Lambda Functions, RESTful APIs, MySQL, MongoDB]
- Unit testing and bug fixing on management software. [Jest, JavaScript, TypeScript]
- Agile/SCRUM development. [Jira, Slack, GitHub, GitHub Actions]

EDUCATION & TRAINING

M.Sc. in Artificial Intelligence and Data Engineering (LM-32)

University of Pisa | Final Grade: 108/110 | Aug 2021 – Oct 2025

Thesis: Model Weight Learning as a Novel Paradigm in Computer Vision

Key Projects: github.com/dgl1797/University-of-Pisa-Projects

AI Engineering

- FPA-Augmented Classification: Data Mining pipeline for Frequent Pattern extraction. [Jupyter, Scikit-learn, Imblearn, SMOTE, mlxtend, Flask, React]
- Super Resolution for Computer Vision: Deep Learning architectures including SRGAN. [PyTorch, TensorFlow, Google Colab]
- NLP Search Engine: High-performance search over MS-MARCO corpus. [Java]
- Research Paper RAG System: End-to-end RAG web app with Vector Search. [OpenAI API, Svelte, FastAPI, MongoDB, Qdrant]
- Thesis: Autoencoder for weight-injection enabling zero-shot knowledge integration. [PyTorch, CUDA, Hydra, W&B, Hugging Face]

Software Engineering

- Playlist Management Social Network: Social platform with real-time recommendation. [Express.js, TypeScript, React, Redux, Redis, MongoDB, Neo4j]
- Mobile Sensing for Road Quality: Smartphone telemetry + GCP pipeline. [Kotlin, Android Studio, Node.js, Google Cloud Run, Firebase]
- Distributed Chat System: Distributed web with Erlang microservice. [Erlang, Java, JSP, HTML, CSS, MySQL, Nginx]
- IoT System for Industrial Monitoring: End-to-end with MQTT/CoAP, Grafana. [Java, MQTT, CoAP, Grafana, MySQL, Contiki-NG]

B.Sc. in Computer Engineering (L-8)

Politecnico di Torino | Mar 2021 – Dec 2021

Key Coursework:

- Algorithms and Data Structures: Optimization, complexity analysis, practical implementation. [C/C++]
 - Databases: Relational algebra and SQL with web project. [SQL]
 - Object-Oriented Programming: Software Engineering, OOP. [UML, Java]
 - Operating Systems: OS fundamentals and multi-thread programming. [C/C++]
 - Computer Networks: ISO/OSI communication protocols.
-

TECHNICAL SKILLS

Software Engineering: SQL, Node.js, Spring Boot, FastAPI, Flask, Java, JavaScript/TypeScript, Git, Docker, React.js, Angular, Python, C/C++, MySQL, MongoDB, Redis, Neo4j, Qdrant.

Artificial Intelligence: Machine Learning, Deep Learning, Pandas, NumPy, Scikit-learn, OpenCV, LLM, Computer Vision, NLP, RAG, Coding Agents (Skills, Tools, MCP, Prompt Engineering), LangGraph.

SOFT SKILLS

Teamwork, Executive Communication, Adaptability, Critical Thinking, Cross-functional Collaboration, Problem Solving, Creativity.

LANGUAGES

Italian: C2 (Native) | English: C1 (Advanced)

I authorize the processing of my personal data in accordance with Italian Legislative Decree 196/2003 and Regulation (EU) 2016/679 (GDPR).
